What's New in the?

Improvements to drawing in AutoCAD: • Draw more smoothly by improving the drawing experience with new tools and features, including redesigned guides and annotation tools. Improved annotation tools: • Simplify the way you annotate in AutoCAD by using dynamic annotations, and more precise placement of your annotations on drawings. New interaction modes: • You can now link annotations to components in a DWG file, and then you can export the annotations to DWG. Easier controls: • Use keyboard shortcuts to control the ribbon in AutoCAD when you have more than one application open. Reorder commands: • Reorder commands in the ribbon to work quickly and efficiently. Improved selection tools: • Easier editing of layers in the Layers palette. Enhancements in Windows: • Automatically register application-specific hotkeys on Windows 10 devices. Keep listening! If you haven't yet registered for the update, you can still download and test the 19.1.1 version. We'll post an update to this page when the 2023 version is available. To check whether the 19.1.1 update is available for you, enter the Start menu and open the

Autodesk Download Center. Then, click on the link titled Update. We are excited to introduce AutoCAD 2023, our biggest update in years. We have new tools and workflow enhancements, such as improved annotation and experience, as well as many new features. We'll talk about some of these in this blog post. In the next couple of weeks, we'll blog about a couple of other new features, such as improvements to the handling of grid objects. We have even more changes planned for the next year. Let's take a look at some of what is new in AutoCAD 2023.First, we'd like to thank all our customers for your continued support and feedback. As we release new versions of AutoCAD, we ask you to continue to provide feedback to us. If you have a feature request or a suggestion, please let us know by sending us an email at feedback@autodesk.com. Thanks for all your feedback.We have been working on AutoCAD for a long time, and we have heard you and your requests about how the
