A fantasy action RPG for the PlayStation®4 (PS4™) in which players become an immortal master of action magic, following the path of the fallen god as they rise to battle the forces of evil. • A life-changing event occurred a thousand years ago. On that fateful day, a hero became a fallen god, and in the process, the God of Destruction possessed him. This act destroyed the nine gates that hold the world in the Lands Between, causing great chaos. A war was unleashed between the Order of Salvation, the Order of Destruction and the eight minor gods. In the process, the evil gods took over the kingdom that used to be the Lands Between. And so, the Lands Between were brought to the brink of ruin. • To live in peace, the princes of the kingdom and the heroes must unite to purge the evil gods. In order to do so, they must expand the territory of the kingdom, and this requires building a new castle. However, the army of the evil gods threatens to destroy the kingdom, and the heroes only have a limited amount of time to clear the lands. • There is also a strong evil master who watches the whole of the world. An immortal king who joined the evil gods at the beginning of time - a twin brother of the God of Destruction. BOSS FIGHT: Playing as the God of Destruction character, on the campaign path, you will face off against the three high-level enemies, so you will have to face off against the high-level bosses at the end of each chapter. • How will you defeat the high-level enemies? These high-level enemies are not like the regular enemies that are encountered in the game. With heavy attacks and moves that can take out your entire party, the high-level enemies have a different flow than the enemies encountered in the campaign. These high-level enemies challenge the very battle structures you established in the previous fight. • Revenge your opponent with your HP, magic, weapons and accessories, and life points This is a battle where your reactions count. Use your craft as a battle mage to protect your party, and try to destroy your opponent with your skills. Your HP, magic, and weapons and accessories are used up as they are applied, and it is possible to be defeated if you are not careful. Now, consider what kind of weapons you will have and how you will craft your magic and skills. How you make your weapons
