CROSS-PLATFORM PLAY BY UNION GAMES. We aim to develop exciting, social titles by combining the fun of online games and the challenge and freedom of single-player.

We are developing **REAL WINGS**, a LIGHTNING RAY'S WORLD. A synthetic-wing mobile game "Lightning Ray's World" is ready, based on the full version of the action game "Real Wings", developed by REAL WINGS.

We also aim to release **UNION GAMES**, a massive multiplayer online role-playing game (MMORPG) to be used with the iOS version of REAL WINGS.

UNION GAMES is designed to be a one-stop destination for the mobile field. We will choose your character's class and customize the class's own abilities according to your play style in order to create an enjoyable experience like a large-scale multiplayer action RPG on the iOS platform.
