Applying its groundbreaking vision analysis technology, Graphisoft 3D System is now providing a complete range of software solutions to automate the development, production and service of 3D data.Hi Everybody, I am new to this Forum and Hello All... This is my first message here. I found this Forum using Google, but have been visiting it for about a week now. I am just a fan of Nostalgia, Music, Americana and often times Music Videos and such. I enjoy music, films, tv shows, photography and sometimes writing. Again, I am new to this Forum so I have no idea how things work. First, I would like to say Thank You to everyone for all the new Member's. I hope to get more active with this Forum. For the first couple of days, I was very skeptical about joining a Forum that all of the members seemed to be talking about one thing only and that was Hunter Parrish. I did my research and I have to say, I am relieved that there are people who enjoy a plethora of topics on this Forum. I've found the people here to be extremely friendly and helpful and willing to answer any questions I had. That said, I guess I am going to go ahead and start talking about myself. I live in Northern California and I am a simple man. I am a Metalhead of various types and I listen to Music from about 1972-present. I listen to Punk, Metal, Classic Rock, and of course my Favorite, Nostalgia. I am a photographer of Nostalgia, Americana and Film as well. I have been a steady member of this Forum for about two days now. Again, I want to say Thank You to all the members who welcomed me and also to the owners of this Forum. There are a lot of great Members here as well as a couple of Administrators. I am honored to be part of this Organization and I hope to be more active in the near
