## **Features Key:**

Full Paneler Cart design  
Intelligent Obstacle Avoidance  
Easy to control

This is fully 5.1 surround sound simulator game where you will control a space ship from a full padding around the game. An amazing feature of this game is you can fly as high as you want from the chair. You can control your ship with the arrow keys.

To prevent you from crashing, there are many obstacles (walls) and tiles to avoid. Well if you make a collision with an obstacle, it will blow up and hit you in the back. It doesn't become a game over. The app gets back to you to the screen where you still have control over your ship.

## **About the game**

Chair Simulator is a space simulator game where you will be moving from object to object. There are many tiles that you can fly through, where a collision will explode and send you back to previous screen.

It's a game of flying from one chair to another. On the way you can destroy other tiles (walls), so try to get the highest score.

## **Gameplay of Chair Simulator**

This the most challenging game for all category. You will be controlling a space ship from a full padding around the game. Your ship will move around space simulating a chair character (just like a space simulator like game :). L control your ship with arrow keys.
