Svegliamo un'associazione familiare con la quale ho avuto un fratello, Andrea (nome rifiutato in famiglia), alla quale siamo strettamente legati. Sia Andrea che mio padre sono morti di cancro. E uno pomeriggio, mentre Andrea stava iniziando a sognare, traendo in vita il corpo di mio padre, improvvisamente è stata vista una luce bianca, lunga. Un porto di luce bianca di circa cento metri all'interno del parcheggio del ristorante. La luce è scomparsa, ma sentiva, una voce di un uomo che cantava. Andrea è saltato a terra e si è rifugiato nel ristorante in cui era stato poco prima a chiedere delizioso panettone che il cibo migliore è quello così indicato in quel contesto. Un altro giorno Andrea ha sentito la stessa voce cantare, e poi avvenne che si sentiva un rumore di correnti. Andrea ha lasciato il ristorante (dove il suo amico era rimasto agnello) e si è ritrovato in una stanza

dalla quale era possibile sentire un leggero rombo. La luce si è allontanata, le correnti hanno smesso di sentire. Andrea si è accertato che non era più nello stesso ristorante, e ha mangiato il

Getting error 'Object of type 'NodateTime.NodaType' cannot be converted to type 'System.DateTime' I am using Nodatetime for saving date in database, My model look like this [Required] public DateTime CreatedOn { get; set; } When i ran my application (debug mode), i found a error in the line where i am using DateTime.ToString() and Nodatime.FromString(). public class

```

NodaTest { public DateTime dtCreatedOn {
get; set; } public string sCreatedOn { get; set;
} } Here is the exception in the application,
Object of type 'NodateTime.NodaType' cannot
be converted to type 'System.DateTime'. A:
There is an alternative DateTime serializer if
you're using Nodatime that you can use. Like:
public class NodaSerializer { public static
string ToString(this DateTime value) { var
formatter =
NodaConvert.DateTimeStringProvider; return
formatter.FormatString(value); } public static
DateTime FromString(this string value) { var
formatter =
NodaConvert.DateTimeStringProvider; return
formatter.Parse(value); } } Then you can use it
like: public class NodaTest { public DateTime
dtCreatedOn { get; set; } public string
sCreatedOn { get; set; } public static void
Save(NodaTest noda
