A fantasy action RPG developed by GarageGames in collaboration with Online Date, the original creators of Triple Triad and Secret Files. The new fantasy action RPG, due out in May 2015, is a breath of fresh air, and more than anything it combines three elements that are very popular today: Action, Fantasy and Adventure. The game is being created to be both a fun solo game as well as a multiplayer game. That being said, unlike other online action RPGs, it focuses on a game that allows players to choose their own adventure. The main features include: -Creating a character with different swords, shields, armors, magical/combat skills, etc. -Vast and large scale world, where you can freely navigate -An epic story, with three chapters per single player -Multiple player battles in fully-voiced three-dimensional environments -A high level of detail (ability to freely rotate and zoom camera) -Unique combat system, where two characters can battle in real-time -Unlimited character development -Six-piece party formation mechanic -An online component allowing players to interact with each other and visit each other's worlds. A limited number of Early Bird units will be available in the Indiegogo campaign. Email This email is not valid. HTML has been banned. Elden Ring p.o.v.

Across the world there are people in the magus who possess great power. These people, called magus, have the potential to reach a higher state of existence. The magus who are the most outstanding have their swords called Elden Ring branded on them. In this game, you create a new sword-brand from a new piece of your Elden Ring.

The Lands Between

The Lands Between consist of three states. The first is Field, an open wide space where you can fight monsters and earn various rewards. The second is Apartment, a narrow space where you can freely kill monsters and take in their treasure. The third is the Tower, a three-dimensional dungeon which you explore and become acquainted with the monsters and treasures inside.

That day, [Angel] opened his arms and said "Take care and have a long life." [Ender] felt like he was going to cry as the warmth of the magus filled his body. He suddenly wanted to go out to the field and play, open his arms and embrace his mother's warmth. Then the young man was swallowed by this black mist, his eyes completely dry.

--About the author

[Ang] is one of the three main characters who constantly think about the others. While always being surrounded by the story because of being the main character of the game, [Ang] occasionally thinks about his childhood and life as a legend.

[Landers], is the third main character who came to the world with [Ang] and the former commander of [Ang] in their times together.

That's right; there's no marketplace, nor pay-for-play space involved when you're playing the game. If you've either owned it on one platform or the other, or been lucky enough to get a bundle for yourself or a
